

# 50. Sleep

EYFS: 3.59

At **Purple Rocket Nursery** we aim to ensure that all children have enough sleep to support their development and natural sleeping rhythms in a safe environment.

The safety of babies' sleeping is paramount. Our policy follows the advice provided by The Cot Death Society to minimise the risk of Sudden Infant Death. We make sure that:

- Babies are placed on their backs to sleep, but when babies can easily turn over from the back to the stomach, they are allowed to adopt whatever position they prefer to sleep
- Babies/toddlers are never put down to sleep with a bottle to self-feed
- Babies/toddlers are monitored visually when sleeping. When monitoring, the staff member looks for the rise and fall of the chest and if the sleep position has changed
- As good practice we monitor babies under six months or a new baby sleeping during the first few weeks every five minutes until we are familiar with the child and their sleeping routines, to offer reassurance to them and families.

We provide a safe sleeping environment by:

- Monitoring the room temperature
- Using clean, light bedding/blankets and ensuring babies are appropriately dressed for sleep to avoid overheating
- Only using safety-approved sleeping equipment (i.e. pods or mats) that are compliant with British Standard regulations, and mattress covers are used in conjunction with a clean fitted sheet
- Ensuring every baby/toddler is provided with clean bedding
- Transferring any baby who falls asleep while being nursed by a practitioner to a safe sleeping surface to complete their rest
- Having a no smoking policy.

We ask parents to complete sheets on their child's sleeping routine with the child's key person when the child starts at nursery and these are reviewed and updated at timely intervals. If a baby has an unusual sleeping routine or a position that we do not use in the nursery i.e. babies sleeping on their tummies, we will explain our policy to the parents and ask them to sign to say they have requested we adopt a different position or pattern on the sleeping babies' form.

We recognise parents' knowledge of their child with regard to sleep routines and will, where possible, work together to ensure each child's individual sleep routines and well-being continues to be met. However, staff will not force a child to sleep or keep them awake against his or her will. They will also not usually wake children from their sleep.

Staff will discuss any changes in sleep routines at the end of the day and share observations and information about children's behaviour when they do not receive enough sleep.
